

For those without water, please be sure to walk your property checking for leaks regularly, and turn off your meter if you find a leak. If you cannot locate your meter or can't get it turned off, you can call the main number, 903-572-3676 and someone will assist you. Due to high call volume, if you can't get through and have an emergency you can text ONLY to 903-563-4536 and someone will get back to you as soon as possible.

Please shut off all faucets at this time as we try to restore the system. This could take from several hours to several days to return to complete pressure and function. Also, please remember as you begin to receive water we are still under a boil order until a rescind notice is sent out.
